Spanish Grammar and Writing

1. Introduction

This Study Guide is a supplement to Course Descriptions. It will give information about the Spanish courses organization, schedules and advice on how best to study and carry out the different tasks. If you have any questions on Spanish courses organization, please contact Mauricio Sánchez, mauricio@kulturstudier.org or whatsapp +4745801266. All other inquiries, please contact our office in Oslo, mail@kulturstudier.no

● Recommendations

When studying Spanish with Kulturstudier / UISIL you will experience that we have an academic approach to the studies. This will by no means say it is not a practical course, on the contrary, we wish to develop your language skills so you can use the language in different settings. What it means is that by completion of the course you should be able to talk, read, write and understand the language satisfactorily. Spanish grammar students will go deeper into the structure of the language to gain teaching skills.

● How to study a language?

Those of us who have not learned Spanish from childhood have to take the longer way and work actively to learn and understand the language. There are no set answers on how to do this the best way, but regardless it will take a lot of effort from you. In Kulturstudier / UISIL we think we have laid a good foundation for your learning by giving you guidance and instructions in the language at the same time as you live in a country where it is the mother tongue. Nevertheless it is just a starting point, and it is your responsibility to participate actively in classes and discussions. However, we do have some useful tips on how you can get the most out of your studies:

A. Work actively from day 1

It is not a good idea to postpone reading and practicing, something that is more doable with typical reading subjects. What you learn each new lesson will build on what you have learned previously, and if you do not have control on course progression you will quickly reach a point where you do not understand what is being explained. In the beginning there will inevitably be a lot of studying and practicing, but if you put in some well-spent time here it won't be long until you can cruise the town practicing your Spanish. In addition, we advise you to continue using www.duolingo.com to practice your Spanish.

B. Practice what you have learned immediately

The best way to remember what you have studied is to use it immediately. For instance, if you are learning the different verbs, make sentences where you get use of the things you have learned.

C. Find a study buddy

When you are learning a new language, you can always talk to the wall, however, far more interesting (and educational!) is to find someone to study with. Get together two or three, listen to each other and make conversation in Spanish.

D. Talk to the other students

It is never natural for people with the same mother tongue (i.e. Norwegian, German, English) to talk together in a different language. But: it is very useful! Arrange with some of your fellow students to only speak Spanish at certain times of the day. For instance, start by only speaking Spanish during breakfast, and then maybe expand to lunch after a while. It takes a bit of discipline, but it works!

E. Look for situations where you can use the language

You are in a Spanish speaking country. Persons in Latin-America are easy to get in contact with, but if you only hang around your fellow foreign friends, it is hard for the locals to get in contact with you. Find activities and go to places where you can meet the locals. Make sure you do not let one person in your student group always take the word in Spanish. That person will learn a lot, but you should be practicing your Spanish too!

F. Be perseverant, engaged and strategic when it comes to online studies

All online lectures will be taught in Spanish language. Particularly the first weeks could be very challenging. Teachers do not expect that you understand **absolutely all** they explain in Spanish. They will use a language level and vocabulary which is correspondent with your own level and their goal is that you understand most of the contents. This methodology will help you to get used to listening and trying to understand Spanish.

2. Course Content

This section provides information about the different sections of the course and guidance on how the students should work in collaboration with each other and the teachers.

● Course book and online resources

Students in Spanish level 0 will use [Aula América 1](#) as the course book, students in Spanish level 1 will use [Campus Sur A1- B1](#) and students in Spanish level 2 will use [Aula Internacional 4 Edición Premium](#). You must have the course book with you every lesson. It will be also necessary to take with you the dictionary and the Spanish grammar book many times.

It is also important to register and activate a student account in [Campus Difusión \(difusion.com\)](#). In this website you will be able to download / use relevant audios, videos, interactive exercises and other online resources associated with *Aula América 1*, with *Aula América 2* or *Aula Internacional 4*. During week 1 you will get guidance on how to find / download these online resources.

- **Course organization table (12 Spanish lessons per week with obligatory attendance + 3 lessons with no obligatory attendance).**

	Pronunciation and Oral Expression	Spanish grammar and writing	Spanish Reading Comprehension
Teoría	1 lesson per week	2 lessons per week	1 lesson per week
Práctica	2 lessons per week	1 lesson per week	2 lessons per week
Evaluación	1 lesson per week	1 lesson per week	1 lesson per week
Disponible	1 lesson per week (not obligatory)	1 lesson per week (not obligatory)	1 lesson per week (not obligatory)

As you see in course organization table, all three Spanish courses will be organized in three different kind of weekly lessons:

Teoría (Theory lessons): Explanation of contents by lecturer.

Práctica (Practice lessons): Explanation of those exercises and tasks you have to complete.

Evaluación (Evaluation lessons): Feedback, evaluation and assessment of expected and achieved individual progression. Quizzes and other submissions will be conducted during these lessons.

Disponible: Teacher is available to schedule and give guidance to students who need further clarification.

Part 2 – Studies at UISIL campus

The largest advantage of studying Spanish in San Isidro is that you study and live in the area where the language is spoken and there are not many tourists there. Besides, we have the possibility to gain a positive influence from the social arena. The contact with your neighbours will become easier the more Spanish you learn. Furthermore, we will arrange many social activities, many visits to Costa Rican organizations and three academic field trips.

● **Visit to Costa Rican organisations:**

All students are attending different visits to Costa Rican organisations. The students will work in groups in preparations for the visits and each student will have a presentation of maximum ten minutes explaining the visit.

● **Academic field trip and day excursions:**

The sites to visit on these excursions are surrounding San Isidro. Kulturstudier/UISIL will organize three excursions this spring. Experiences acquired during these excursions will function as background knowledge in order to present a group project. The criteria taken into account for the selection of these sites are their historical, cultural, ecological and social value for Costa Rican society. It is intended that in every excursion, students acquire knowledge and develop various skills through specific tasks assigned by their Spanish and History teachers.

1. Longo Maji: Agricultural and ecological community focused on sustainable production for self-consumption and inhabited mostly by Salvadoran immigrants who fled the war in their country in the 80s.
2. Agro-ecological farm: We will stay with a local farmer in a rural community with innovative and sustainable ideas. They produce non-traditional products and have an agro ecotourism project.
3. Brunca indigenous community An indigenous community up in the mountains with a museum where we can admire their traditional masks and traditions.

3. Evaluation

During week 1 students will get instruction and guidance on all submissions / quizzes you have to present in the online period.

- **Evaluation scale (all courses)**

90 – 100 %	A	Excellent
80 – 89 %	B	Good
